NOTICE

Work Planned on Township Line Road (North)

Whitpain Township plans to correct a drainage issue on Township Line Road (north) between Route 202 and Beaumont Place in Lower Gwynedd Township early next year. Currently water runoff is causing an icing problem on the roadway and this work will alleviate the concern.

To safely complete this project, Whitpain Township's contractor will be closing a section of Township Line Road (north) from Route 202 to an area west of Beaumont Place (please see enclosed map) to traffic from 9:00 am to 3:00 pm on weekdays between January 2 and January 9.

Residents will have access to their properties during construction. Please note that this project is weather dependent.

If you require any additional information, please contact Whitpain Township Public Works Department, (610)277-2400.
