*Pure water, quality service...naturally*

August 16, 2018

Dear Penllyn Area Resident:

**RE: North Wales Water Authority  
Penllyn Area Water Main Replacement  
Lower Gwynedd Township**

This letter is to inform you of the upcoming North Wales Water Authority (NWWA) improvement project on your street. NWWA will be replacing the existing cast iron water mains in the road right-of-way with new ductile iron water mains.

The project is expected to begin on or around August 22, 2018 and will last approximately 90 days. The project will consist of installing the new water main, new fire hydrants and replacing your existing water service with 1" copper pipe from the new main to a new curb box located near the edge of your property. After completion of the work all paved and grassed areas will be fully restored.

NWWA's contractor is B.P. Paterson Inc. Hours of operation will be from 7:00 am to 7:00 pm Monday through Friday. Streets are to be open to local traffic, emergency vehicles, mail delivery and school buses; however, as with all construction operations, some delays may be encountered while vehicles are flagged around the work zone.

Water service will not be interrupted during the project except for a period of about one hour near the end of the work when your water service is reconnected. NWWA will provide prior notification once this work is scheduled.

NWWA is undertaking this project to improve the reliability and hydraulics of our distribution system. No resident will be charged for the cost of the work.

Please visit our website at [www.nwwater.com](http://www.nwwater.com) for on-going updates on the project.

Should you have any further questions please contact Joe Murphy at (215) 699-4836 or email to [jmurphy@nwwater.com](mailto:jmurphy@nwwater.com).

Sincerely,

The North Wales Water Authority

A STRATEGIC PARTNERSHIP
