

Communication/Outreach: ensuring accurate, timely communication with township residents about EAC activities and environmental developments of interest

Webpage/Township newsletter

Social Media

Special Events

These committees work to keep the community informed of activities, issues and engagement opportunities within the township as well as regional programs. The committees utilize webpage postings, email notifications, social media notices, and special programs and events to apprise residents. The committees will work closely with township staff and the communication subcommittee consultants to provide a transparent and comprehensive platform to reach our community and to ensure that information posted or provided is up-to-date, accurate, and easily accessible to the community.
